

## DataVaccinator sets up regional HQ in UAE

---

### MENA expansion of DataVaccinator's health data business

**Luxembourg, 23 April 2024** – With its newly founded subsidiary DataVaccinator Limited, DataVaccinator takes a decisive step to serving healthcare organizations in the Middle East and North Africa (MENA) by supporting the emerging health ecosystems in this region.

“DataVaccinator’s innovative software helps the healthcare sector in its endeavors for better data quality and collaborative sharing of health data to the benefit of patients. By streamlining the workflows from curation, de-risking and structuring of health data to securely collecting and provisioning such data, DataVaccinator automates many of today’s cumbersome tasks”, states Volker Schmid, CTO. “Our solutions enable the cost-effective sharing of data among all stakeholders, from clinics and healthcare organizations to pharma companies.”

“Serving the healthcare sector regionally and locally is imperative, in particular in the fast-paced MENA region”, says Kurt Kammerer, CEO. “Our partners strongly support our move into the region which is open for growth. By setting up this regional operation, we will both benefit from the dynamic development of the region and we will contribute to its development with rapid innovation in close collaboration with customers and business partners”.
